

Nutrego is a Czech company which, together with its partners, provides services in the fields of nutrition therapy, gynaecology, internal medicine, practical medicine, dermatovenerology, clinical psychology and others. We help to ensure comprehensive services in the area of nutritional care for malnourished patients or patients with eating disorders, oncological diseases, patients before or after a surgery, patients after gastrointestinal surgeries and last but not least, for geriatric patients.

Clinical nutrition Nutrego is produced in the Czech Republic and complies with the highest quality standards. All our products are registered by the State Institute for Drug Control as foods for special clinical purposes. Nutrego can also be got from a network of pharmacies as an over-the-counter medicine.
