

DAIRY DIVISION

PRODUCT CATALOGUE

We know everything about milk.

Interlacto Group

The company was established in 1991. From the very beginning the core activity has been the export of dairy products, in particular milk powders and butter. This trend has been preserved to this day, but the assortment has been expanded to include cheese, condensed milk, sweet whey powder, demineralized whey powder, UHT milk, liquid products, baby nutrition, dried mixtures and consumer products.

In 1993 the company purchased a majority share in Jihlavské mlékárny a. s., now called Moravia Lacto a. s., Jihlava and in 2006 it managed to expand the dairy division by two dairies Bohemilk, a. s. Opočno and Dairy plant Olešnice RMD, whereby the group strengthened its position particularly in the area of long-life dairy products, curd, white cheese and the horeca range, including ice cream mixes, drift-ice drinks and baby nutrition. Products from Dairy plant Olešnice a. s. and Moravia Lacto a. s. were sold under the Moravia brand,

products from Bohemilk, a. s. were sold under the BOHEMILK brand.

Since 2024, both brands have been united, all products of all dairies are sold under the BOHEMILK OPOČNO brand.

In 2000, the company decided to invest into agricultural enterprises in the Jihlava region, aiming at a more efficient linkage of producers and processors. Because of this the company expanded, becoming a relevant producer of feed mixtures and pork meat.

Export and import activities present about 90% of the company's annual turnover. Exports are mainly directed to the Middle East, the Balkan countries, South America, and the European Union. Within the Czech Republic the company holds a leading position among producers of dairy products.

Apart from the dairy products, INTERLACTO is prepared to offer its professional services in arranging

customs and veterinary clearance, laboratory analysis and logistics, as required by the customer.

In professional terms, Interlacto is a member of the Federation of the Food and Drink Industries of the Czech Republic (FFDI).

All the production plants of the dairy division of INTERLACTO Czech Group are certified according to IFS Standards. Practically the entire line of products is awarded by the KLASA mark and the Czech Product mark which are awarded only to high quality Czech food products.

In the course of recent years, Interlacto group has expanded into new areas of business focused on development and production of baby fruit purees and fruit drinks (Deva Nutrition a. s.), products of clinical nutrition (Nutrego brand) and pharmaceutical products from ionic solutions to enteral nutrition (Ardeapharma, a. s.).
